

Highlights:

- Ergonomic carry handles
- Solid and strong drum

Product information:

The CDM152 is a high-quality cable reel, featuring a steel tubular frame with a solid and strong drum constructed of high-quality and impact resistant materials. The drum dimensions of Ø 285 mm x 140 mm offers a capacity up to 130 meters of standard microphone (~ Ø 6.5 mm) and up to 65 meters of speaker cable (Ø 9.0 mm). Other present features such as the ergonomic grip, front flange with practical cable holder and blocking brake, makes it a practical tool for carrying any cable to any event or production!
