

SUB12

COMPACT 12" SUBWOOFER

FEATURES

- One 12" transducer
- Compact and lightweight
- Extended bass response down to 35 Hz
- Pole cup accessory for sub/satellite configurations

APPLICATIONS

- Restaurants
- Lounges
- Houses of Worship
- Theaters
- Portable Systems

DESCRIPTION

The SUB12 is a high-powered, high-performance, passive, reflex bass unit. It is equipped with a single 12" low frequency driver with a 4" voice coil. Its extended bass response goes down to 35 Hz with low distortion. SUB12 is lightweight and has a compact footprint. The enclosure features two recessed NL4 connectors so the sub can be placed directly against a wall.

The SUB12 can be equipped with the Sub Pole Cup accessory, in order to attach an Active Speaker Tube to support a satellite speaker. It is ideal for restaurants and lounges, fitting underneath or in between banquettes, but also in residential applications or portable systems.
