Wave Board
With Blue Pill Inside

Audio control is not always a separate concern to the video producer.

SKAARHOJ controllers generally give you access to audio adjustments and monitoring through encoders and four-way buttons and by means of multi level LED bars.

IF that doesn't cut it, Wave Board comes to the rescue with eight motorized faders, full color LED bars, a four button control section per channel and global function keys to multiply it all at your will.
